PROFILE SUMMARY

React frontend developer with 1.5 years of experience. I specialize in crafting innovative user interface features using React.js. Proficient in JavaScript and Redux, I am eager to apply and enhance my skills in a role where I can contribute to software projects and team success.

WORK EXPERIENCE

Software Engineer | DataFoundry.ai, Vishakapatnam

Nov 2022 - Dec 2023

- Translated designs into efficient code, optimizing for performance across browsers.
- Developed reusable UI components with React.js, minimizing redundancy and utilizing Antd for efficiency.
- Collaborated seamlessly across teams to address code issues and implementing unit tests for quality assurance.

Software Trainee Engineer | DataFoundry.ai, Vishakapatnam

Aug 2022 - Nov 2022

- Assist in coding, debugging, and testing tasks under supervision to contribute to the delivery of high-quality software products, supporting development processes effectively.
- Engage with team members to gather requirements, participate in design discussions, and offer valuable insights, fostering a dynamic learning environment while actively advancing project goals through collaborative efforts.

SKILLS

React.js, Redux, Javascript, HTML5, CSS3, Unit Testing, Bitbucket, JIRA

EDUCATION

Bachelor of Technology in Civil Engineering

Jul 2014 - May 2018

Vignan's Institute of Information Technology, Vishakapatnam

Percentage : 72.90%

Intermediate (12th Grade)

Jun 2012 - Apr 2014

Sri chaitanya junior college, Vishakapatnam

Percentage : 88.2%

PROJECTS

DF mSignal AI | DataFoundry.ai

Nov 2022 - Dec 2023

- An advanced signal management system for pharmaceuticals, cosmetics, and medical devices, providing comprehensive coverage and precise detection of potential risks.
- Leveraging statistical scores derived from multiple data sources, DF mSignal AI facilitates active and passive surveillance, enabling proactive risk management.
- With multi-format data representations and collaborative signal reporting, DF mSignal AI empowers users to efficiently monitor and address safety concerns across diverse product categories.

DF Expenses | DataFoundry.ai

Aug 2022 - Nov 2022

- Tailored web app by Datafoundry to replace complex, costly manual expense processes.
 - Focus on automation, communication enhancement, error reduction, and user-friendly interface.
 - Aiming for operational efficiency, the app improves expense management with efficiency, communication, and accuracy.
